BCA with elective in Computer Science & Information Technology

About the **elective**

A BCA Program in Computer Science and Information Technology opens the door to different career opportunities. Our curriculum is designed and framed in a way that fosters the analytical abilities to solve real-world situations. The program provides a thorough knowledge of database management systems, programming, software engineering, etc.

The global curriculum places a strong emphasis on cutting-edge technology, keeping learners updated with the latest industry requirements. It covers all the recent technologies like big data analytics, cloud computing, python programming, and other core topics that help to become a successful tech manager.

Elective **highlights**

- Become well-versed in the fundamentals of computer science and IT
- Build a strong foundation in computer languages, software development, databases, and security networks
- Update your knowledge and gain practical experience with the latest software technologies, methods, and applications
- Learn important aspects about computer programming, database management systems, web technologies, software engineering, etc
- Gain proficiency in critical IT skills

Learning **Methodology**

- 120 study hours in each course
- Interactive audio-video lectures
- Pre-recorded video lectures
- Discussion forum
- Self e-learning material
- Assignments, quizzes, MCQ, etc. for reinforcement
- Independent and group projects

Duration -
3 years (6 semesters)

Live Online Sessions -
Weekend

Syllabus

1st Semester English Applied Mathematics Introduction to Computer Architecture Data Structures* Programming in C* Quantitative Techniques	2nd Semester Discrete Mathematics Relational Database Management Systems* Operating Systems Using Linux* Computer Networks Technology for Business Communicative English
3rd Semester Statistics Design & Analysis of Algorithms* Python Programming* Cloud Computing Foundations Environmental Science	4th Semester Internet of Things Data Mining Web Technologies* Object Oriented Programming using JAVA* Entrepreneurship
5th Semester Software Engineering Business Management Mobile Application Development Research Methodology Personal and Managerial Effectiveness	6th Semester IT Project Management IT Laws & Cybersecurity Introduction To Business Analytics Ethics and Values Project**

* Courses which include Lab Programs, Coding and Exercise
** Project will be carried out between Sem 5 and Sem 6, but evaluation will reflect in Sem 6

Fee Structure:

For Indian National & SAARC Nations	
Semester Fee Plan	₹ 20,000
Annual Fee Plan	₹ 40,000

Note
1. One Time University Registration Fee of ₹ 2500 is applicable during admission

2. Examination Fee of ₹ 4000 per year is applicable

For Foreign Students	
Semester Fee Plan	\$400
Annual Fee Plan	\$800

Note
1. One Time University Registration Fee of \$ 50 is applicable during admissionn

2. Examination Fee of \$ 60 per year is applicable

Process to Enroll:

- 1

 Apply for your desired program
- 2

 Upload documents
- 3

 Pay tuition/program fee
- 4

 Document verification
- 5

 Provisional admission confirmation
- 6

 Confirmation of admission
- 7

 LMS activation
